How to Brew: THE ANNIVERSARY BLEND

Starbucks Pour-Over Coffee:

Starbucks pour-over is a beautifully simple and accessible way to brew a single cup of pour-over coffee with clean, fully developed flavor and body.

1. MEASURE AND BOIL

Measure as much water as you're going to use to brew, plus a little extra for rinsing the filter, and bring it to a boil.

2. PRE-MOISTEN FILTER

Briefly rinse the paper filter with hot water, and discard the rinse water. This will give your coffee the purest flavor possible.

3. MEASURE AND GRIND

Now, measure your coffee. Use coffee ground for a paper cone. It's a relatively fine grind that looks like granulated sugar. Measure 2 tablespoons of coffee per 6 ounces of water.

4. POUR AND PAUSE

Use hot water that's just off the boil and fill the cone halfway to saturate the grounds. Pause for 10 seconds and let the coffee bloom. This allows the coffee to hydrate evenly and begin to develop flavor.

5. COMPLETE THE POUR AND ENJOY

Slowly add the rest of the water, pouring in small, steady circles to cover all the grounds. Enjoy immediately.

TIP: To make your pour-over more consistent, use a timer. It should take about 3 minutes to make a cup.
